Arvika

The traditional Arvika wall luminaire with its smooth steel body and large glass dome is brimming with nostalgia and brings to mind the yards of old. The Arvika is ideal for lighting facades, outdoor entrances and corridors. The model can be combined with the bollard and wall luminaires in the Kartano series. The bulb is very visible inside the Arvika lamp, which means that you can significantly affect the mood and luminosity by choosing the right bulb.

- Body made of steel, dome made of clear bubble glass.
- White and black.
- Wall mount.
- Screw connectors 3 x 2.5 mm², one cable entry, cannot be chained together.
- LED bulb max. 11 W E27, not included.
- Enclosure class IP44.
- Temperature of environment of use -20 ... 35 °C, depending on the bulb.
