

Compact Multi

Compact Multi is a responsibly manufactured and high-quality downlight. The light fixture is made of recycled aluminum and plastic. Compact Multi is an ecological choice, as its light source is easily replaceable by the user, which extends the life of the fixture. This adjustable unit is suitable both for general lighting and for highlighting details. It is used in residential buildings and public spaces that require high-quality color rendering, such as museums, restaurants, galleries and hotels. The color temperature of the fixture can be selected from three options before installation. The downlight is dimmable, which offers additional options for atmospheric lighting in the space.

- Body recycled aluminium, frame and protective cup recycled plastic.
