

## Cosy Fix

With the Cosy Fix downlights, you can create a lighting solution that does not generate glare. As special design features, the models are equipped with an inconspicuous frame ring and an LED lamp that is seated deep within the luminaire. To minimise glare, the luminaire is equipped with a reflector that directs the light out. Typical applications include museums, restaurants, galleries, hotels, residential properties and any other spaces where excellent colour rendition properties are required. All models are dimmable.

- Die-cast aluminium housing and acrylic diffuser.
- Reflector 36D, high gloss aluminium.
- White, RAL 9010.
- Protection class II.
- Recessed mounting on a ceiling, cut out Ø 78–80 mm.
