

## DM4 Stelo

Stylistically, this bollard luminaire for outdoor use is an excellent match with the wall-mounted DM4 luminaires. The DM4 Stelo bollard luminaire reflects light in four directions. Available with an integrated LED and an E27 base. High-quality surface treatment: the aluminium housing is coated with polyester paint that is resistant to corrosion and UV radiation, the screws are made of stainless steel. Installation with a separate mounting base (ground mounting tube MTS-2N 4146704).

- Aluminium housing and frosted glass diffuser (GLFR).
- Anthracite, silver, black and white.
- Protection class I.
- Screw couplers, 3 x 2.5 mm<sup>2</sup>, one cable inlet.
- Linkable using separate mini junction box 1602606.
- Fixed LED: 18 W / 800 lm
- Fixed LED colour temperatures: 3,000 K and 4,000 K. CRI > 80 / Ra > 80.
- In E27 models LED lamp max. 11 W, not included.
- Recommended lamps: Airam Frost LED lamps.
- MacAdam 3 SDCM.
- IP65.
- IK05.
- On/off.
- Ambient temperature range -25 ... 25 °C, in line with the recommendations for the lamp on E27 base models.
- Rated lifetime L70 100,000 h (Ta 25 °C).
- Power source lifespan 100,000 h.
- AN = anthracite, SI = silver, BK = black, WH = white, GL = glass, FR = frosted diffuser.
- 300 and 500 mm-high models available on a project-specific basis. A cover sheet that can be used to cover one or more of the luminaire's four openings is available as an accessory. A root mounting kit is also an available accessory.
